

**Scott Gilman**  
*Managing Director and Co-Founder*  
*JapanQuest Journeys*

JapanQuest Journeys (“JQJ”) is operated by AsiaQuest Journeys, LLC with offices in Washington, DC and Tokyo, Japan. JapanQuest Journeys is a boutique firm specializing in bespoke “tailor-made” luxury journeys and the premier destination management company to Japan.

Co-Founder, Scott Gilman created JQJ to embody a uniquely different approach to experience the wonders of Japan; providing a way to “decode” the real Japan and to gain an insider’s perspective – tapping into “in-the-know” locals that capture the imagination and attention of high-end travelers worldwide. With decades cultivating local relationships and uncovering unusual and special opportunities, our bespoke luxury journeys unlock the mysteries of Japan, making it truly accessible to our clients who want to experience a deeper side of the real Japan.

Scott passionately believes that JQJ is uniquely positioned to offer luxury Japan travel with an unparalleled single country focus and an extraordinary high-touch service model. Starting with world class hotel stays in some of the most exciting places in Japan, and supported by local client services staff throughout a client’s journey, JQJ takes the visitor experience a step further by offering a choice of niche journeys that will each take you on a journey only true locals would know.

Japan is vibrant, exceptionally interesting, filled with a rich cultural heritage that permeates every corner of the country. We know it exceedingly well and bring a wealth of experience to our clients based upon years of living in and traveling throughout Japan – delving into the social, cultural and historic backbone of the country.
