

Hampton H. Hart, Jr.

Technological Hazards Division Deputy Director Headquarters, DHS/Federal Emergency Management Agency Washington, DC

Hampton H. Hart, Jr., assumed the position as the Technological Hazards Division deputy director in June 2018. In that capacity, Mr. Hart supports the implementation of the Radiological and Chemical Stockpile Emergency Preparedness Programs that assists state, tribal, and local governments in the development and conduct of their offsite emergency preparedness activities within the emergency planning zones of NRC licensed commercial nuclear power facilities and the communities surrounding the Army's Chemical Weapons Stockpile sites.

Prior to this assignment, from May 2014 – June 2018, Mr. Hart served as the National Exercise Division's Deputy Director, where in that capacity, he supported the provision of doctrine, programs, and resources needed to assess the Nation's ability to provide the requisite capabilities to prevent, protect against, mitigate, respond to and recover from all threats and hazards. Prior, Mr Hart served as the Division's Planning Branch Chief, from June 2011 – May 2014.

Prior to joining FEMA, Mr. Hart served as the Director, Office of Training and Exercises, Virginia's Department of Emergency Management (VDEM) from November 2003 – June 2011, where was responsible for coordinating and managing the Commonwealth's National Incident Management System and Incident Command System, Emergency Management, Terrorism Awareness, and Homeland Security Exercise and Evaluation training programs. Mr. Hart joined the VDEM in 2003 following a career in the U.S. Army.

Mr. Hart holds a baccalaureate degree from Howard University, and Masters of Military Art and Science Degree from Virginia Commonwealth University's Executive Institute.
